EDUCATION

Ph.D., Civil & Environmental Engineering — June 2020
Environmental Fluid Mechanics & Hydrology
Stanford University, Stanford, CA

M.S., Civil & Environmental Engineering — June 2016
Environmental Fluid Mechanics & Hydrology
Stanford University, Stanford, CA

B.S., Civil Engineering | *magna cum laude* — June 2015
Environmental & Water Resources Engineering
UCLA, Los Angeles, CA

SELECTED EXPERIENCE

Assistant Professor, Seattle University, Mathematics Department — 01/2024–present
Teaching undergraduate math and graduate level data science courses, and conducting research in oceanography and fluid dynamics.

Data Scientist → **Senior Research Scientist** → **Consultant**, Sofar Ocean — 02/2021–present
My role at Sofar involved developing optimization algorithms and simulating vessel hydrodynamics for Wayfinder, Sofar's commercial ship routing application. Responsibilities also included conducting customer-facing data analyses, developing embedded sensing algorithms for Sofar Spotter buoys. As a consultant I am continuing to drive ocean science R&D efforts related to air-sea interactions.

Postdoctoral researcher, Stanford University — 06/2020–12/2020
Advisor: Prof. Oliver Fringer
Improved parameterization schemes for numerical sediment transport models based on results from field data collected in San Francisco Bay.

On-call scientist, Integral Consulting Inc. — 08/2019–02/2021
Supervisor: Grace Chang
Provided data analysis and field work support for Integral's Marine Science & Engineering department. Example work included a baseline condition assessment for a potential sediment remediation site.

Graduate researcher, Stanford University — 06/2016–06/2020
Advisor: Prof. Stephen Monismith
Led three field deployments in San Francisco Bay with novel instrumentation designed to investigate boundary layer turbulence and sediment transport. Additional projects include hydrodynamic modeling of stratified turbulence in a tidal river, and running laboratory experiments to quantify the mixing of brine discharge from desalination plants.

Undergraduate researcher, UCLA — 01/2013–06/2015
Laboratory for the Chemistry of Construction Materials
Advisor: Prof. Gaurav Sant
Investigated the mechanical and transport properties of low-CO_2 footprint concretes for civil infrastructure applications.

FUNDED PROPOSALS

ONR: N00014-22-1-2405 Distributed, real-time observations of the air-sea interface. 2022-2024
Role: Lead PI, coordinating field work, data analysis, and deliverables. Collaboration with UCSB/WHOI
Total Award Amount: $675,342

NSF EAR-PF (Declined) Data-driven parameter estimation for sediment transport modeling. 2021-2023
Role: Lead PI for Postdoctoral Fellowship working with Prof. Steven Brunton (UW)
Total Award Amount: $174,000

RELEVANT SKILLS

General skills and interests: Environmental fluid mechanics, physical oceanography, air-sea interactions, numerical modeling, (non-)convex optimization, machine learning, data-assimilation, STEM education

Software tools:

Advanced: Python (including Keras, PyTorch, sklearn, NumPy, SciPy, pandas), MATLAB, git
Proficient: Rust, Fortran, AWS Tools (S3, EC2), SQL, ArcGIS, ROMS, Adobe Illustrator

TEACHING

CEE 262H: Observational Methods in Coastal Oceanography, Stanford University Spring 2020

Co-instructor: prepared and gave lectures related to turbulence and sediment measurements and data analysis in coastal environments.

CEE 262B: Transport and Mixing in Surface Water Flows, Stanford University Winter 2017, 2018

Teaching assistant: prepared and taught lessons for weekly supplementary class session, held office hours, and graded assignments.

OSPGEN 53: Corals of Palau, Stanford/Bing Overseas Program Summer 2017

Teaching assistant: Prior to the course, coordinated shipping and programming all of scientific instruments used for three week summer course in Palau. During the course, helped mentor student research projects, coordinated field excursions, and directed student life abroad.

CEE 101B: Mechanics of Fluids, Stanford University Fall 2016

Teaching assistant: held weekly office hours and review sessions, set up and assisted with the laboratory portion of the course.

CEE 201S: Computations in CEE, Stanford University Summer 2016

Teaching assistant: held weekly office hours, graded assignments, and led supplemental discussion section for a MATLAB-based programming class. Taught to a wide audience, from high school seniors to Stanford Continuing Studies students.

INVITED TALKS

"Buoys in the water, forecasts in the cloud: full stack oceanography at Sofar Ocean." UW Applied Physics Lab, May 2022, Seattle, WA

"The bottom boundary layer in San Francisco Bay: waves, turbulence, mud, and worms." Coastal Ocean Fluid Dynamics Laboratory Talk, September 2019, Woods Hole, MA

"What we learned from three muddy field deployments in San Francisco Bay." Integral Consulting Marine Science and Engineering Webinar, May 2019, Santa Cruz, CA

"Cohesive sediment and the friction velocity." Stanford Environmental Fluid Mechanics Laboratory Seminar, April 2019, Stanford, CA

"Stratification and turbulence in a tidal river: observations and 1D modeling." Stanford Environmental Fluid Mechanics Laboratory Seminar, September 2017, Stanford, CA

AWARDS & CERTIFICATIONS

Centennial Teaching Assistant Award Recipient	2018
Outstanding Student Presentation Award, AGU Fall Meeting	2018
Charles H. Leavell Graduate Student Fellowship	2017–2018
John K. Vennard Fellowship	2015–2016
California EIT #157339	2016

SERVICE, MENTORING,& OUTREACH

Peer Reviewer 2019–Present
Reviewed publications for: *Journal of Geophysical Research: Oceans*, *Marine Geology*, *Estuaries & Coasts*, *Continental Shelf Research*

Session Organizer 2022
Co-hosted a session, entitled IoT and Distributed Sensing in Ocean Science and Research, at Ocean Sciences Meeting 2022. Duties included reviewing submissions, scheduling talks and posters, and guiding community discussions.

Undergraduate research mentor 2018–2021
Mentored an undergraduate researcher (now PhD student at UC Berkeley). Trained in field work and data analysis, and held weekly meetings for honors thesis project.
For reference, contact Marianne Cowherd at cowherd@berkeley.edu

Undergraduate research mentor 2018–2019
Assisted an undergraduate researcher (now PhD student at UC Berkeley) with her honors thesis, which won the Firestone Medal for Excellence in Undergraduate Research.
For reference, contact Sienna White at siennaw@berkeley.edu

Stanford CEE Graduate Life Committee Environmental Engineering Representative 2017–2019
Planned and led quarterly town hall meetings to gain insight into problems experienced by graduate students in CEE, including issues related to diversity and inclusion, advisor relationships, and admissions procedures.

National Ocean Sciences Bowl Volunteer - Stanford, CA 2017
Assisted with judging and logistics for Ocean Sciences quiz bowl for local high school students.
