## EDUCATION

---

<b>Ph.D.</b> , Civil & Environmental Engineering Environmental Fluid Mechanics & Hydrology Stanford University, Stanford, CA	June 2020
<b>M.S.</b> , Civil & Environmental Engineering Environmental Fluid Mechanics & Hydrology Stanford University, Stanford, CA	June 2016
<b>B.S.</b> , Civil Engineering   <i>magna cum laude</i> Environmental & Water Resources Engineering UCLA, Los Angeles, CA	June 2015

## SELECTED EXPERIENCE

---

<b>Data Scientist</b> , Sofar Ocean Sofar Ocean is an oceanography-technology start-up in San Francisco. My role is to develop optimization algorithms and simulate vessel hydrodynamics for Wayfinder, Sofar's commercial ship routing application. Responsibilities also include conducting customer-facing data analyses and developing embedded sensing algorithms for Sofar Spotter buoys.	02/2021–present
<b>Postdoctoral researcher</b> , Stanford University Advisor: Prof. Oliver Fringer Improved parameterization schemes for numerical sediment transport models based on results from field data collected in San Francisco Bay.	06/2020–12/2020
<b>On-call scientist</b> , Integral Consulting Inc. Supervisor: Grace Chang Provided data analysis and field work support for Integral's Marine Science & Engineering department. Example work included a baseline condition assessment for a potential sediment remediation site.	08/2019–02/2021
<b>Graduate researcher</b> , Stanford University Advisor: Prof. Stephen Monismith Led three field deployments in San Francisco Bay with novel instrumentation designed to investigate boundary layer turbulence and sediment transport. Additional projects include hydrodynamic modeling of stratified turbulence in a tidal river, and running laboratory experiments to quantify the mixing of brine discharge from desalination plants.	06/2016–06/2020
<b>Undergraduate researcher</b> , UCLA Laboratory for the Chemistry of Construction Materials Advisor: Prof. Gaurav Sant Investigated the mechanical and transport properties of low-CO <sub>2</sub> footprint concretes for civil infrastructure applications. Designed and conducted multi-year experiments studying the effects of aggregate inclusion on moisture transport and drying shrinkage in cement composites.	01/2013–06/2015

## PEER-REVIEWED PUBLICATIONS

---

- Egan, G.**, Chang, G., Manning, A., Monismith, S., & Fringer, O. (2022) On the variability of flocculation characteristics in a shallow estuary. *Journal of Geophysical Research: Oceans* 127(6), e2021JC018343.
- Chang, G., **Egan, G.**, McNeil, J. D., McWilliams, S., Jones, C., Spada, F., Monismith, S., & Fringer, O. (2021). Seasonal particle responses to near-bed shear stress in a shallow, wave-and current-driven environment. *Limnology and Oceanography Letters* 7(2), 175-183.
- Cowherd, M., **Egan, G.**, Monismith, S., & Fringer, O. (2021). Phase-resolved wave boundary layer dynamics in a shallow estuary. *Geophysical Research Letters* 48(8), e2020GL092251.
- Roberts, D.C., **Egan, G.**, Forrest, A.L., Largier, J.L., Bombardelli, F.A., Laval, B.E., Monismith, S.G., Schladow, S.G. (2021). The setup and relaxation of spring upwelling in a deep, rotationally influenced lake. *Limnology & Oceanography* 66(4), 1168-1189.
- Egan, G.**, Chang, G., McWilliams, S., Revelas, G., Fringer, O., & Monismith, S. (2020). Cohesive sediment erosion in a combined wave-current boundary layer. *Journal of Geophysical Research: Oceans*, e2020JC016655.
- Egan, G.**, Manning, A., Chang, G., Fringer, O., & Monismith, S. (2020). Sediment-induced stratification in an estuarine bottom boundary layer. *Journal of Geophysical Research: Oceans* 125, e2019JC016022.
- Egan, G.**, Chang, G., Revelas, G., Monismith, S., & Fringer, O. (2020). Bottom drag varies seasonally with biological roughness. *Geophysical Research Letters* 47(15), e2020GL088425.
- Egan, G.**, Cowherd, M., Fringer, O., & Monismith, S. (2019). Observations of near-bed shear stress in a shallow, wave- and current-driven flow. *Journal of Geophysical Research: Oceans* 124(8), 6323-6344.
- Monismith, S.G., Hirsh, H., Batista, N., Francis, H., **Egan, G.**, & Dunbar, R.B. (2019). Flow and drag in a seagrass bed. *Journal of Geophysical Research: Oceans* 124(3), 2153-2163.

- Egan, G.**, Kumar, A., Neithalath, N., & Sant, G. (2017). Re-examining the influence of the inclusion characteristics on the drying shrinkage of cementitious composites. *Construction and Building Materials* 146, 713-722.

## FUNDED PROPOSALS

---

- ONR: N00014-22-1-2405** Distributed, real-time observations of the air-sea interface. 2022-2024  
Role: Lead PI, coordinating field work, data analysis, and deliverables. Collaboration with UCSB/WHOI  
Total Award Amount: \$675,342
- NSF EAR-PF** (Declined) Data-driven parameter estimation and uncertainty quantification for sediment transport modeling. 2021-2023  
Role: Lead PI for Postdoctoral Fellowship working with Prof. Steven Brunton (UW)  
Total Award Amount: \$174,000

## RELEVANT SKILLS

---

**General skills and interests:** Environmental fluid mechanics, physical oceanography, air-sea interactions, numerical modeling, (non-)convex optimization, machine learning, data-assimilation

**Software tools:**

*Advanced:* Python (including Keras, PyTorch, sklearn, NumPy, SciPy, pandas), MATLAB, git  
*Proficient:* Rust, Fortran, AWS Tools (S3, EC2), SQL, ArcGIS, ROMS, Adobe Illustrator

## CONFERENCES

---

- Egan, G.**, Dorsay, C., Prieto, A., Lichtenheld, T., & Smit, P. "Real-time, low-cost proxy observations of ocean rainfall from a distributed buoy network." (talk). Oceans 2022, Virginia Beach, VA
- Egan, G.**, Houghton, I., & Dorsay, C. "Real-time proxy observations of ocean rainfall from a distributed buoy network." (talk) OSM 2022, Virtual.
- Egan, G.**, Chang, G., Spada, F., Manning, A., Jones, C., Monismith, S., & Fringer, O. "Settling velocity observations in a shallow estuary: Deviations from Rouse dynamics." (poster) AGU Fall Meeting 2020, Virtual
- Egan, G.**, Cowherd, M., Spada, F., Scheu, K., Manning, A., Jones, C., Chang, G., Fringer, O., & Monismith, S. "Cohesive sediment erosion in a shallow, wave- and current-driven flow." (poster) 2020 Ocean Sciences Meeting, San Diego, CA
- Cowherd, M., **Egan, G.**, Monismith, S., & Fringer, O. "Wave phase-decomposed near-bed currents and turbulence on the shoals of South San Francisco Bay." (poster) 2020 Ocean Sciences Meeting, San Diego, CA
- Chang, G., **Egan, G.**, Spada, F., Jones, C., Manning, A., Monismith, S., & Fringer, O. "Variability of particle characteristics in a wave- and current-driven estuarine environment." (poster) 2020 Ocean Sciences Meeting, San Diego, CA
- Egan, G.**, Cowherd, M., Spada, F., Scheu, K., Manning, A., Jones, C., Monismith, S., Chang, G., Fringer, O. "More than mud: bottom boundary layer observations in an estuary." (poster) Gordon Research Conference: Coastal Ocean Dynamics, June 2019, Manchester, NH.
- Egan, G.**, Cowherd, M., Spada, F., Scheu, K., Manning, A., Jones, C., Monismith, S., Chang, G., & Fringer, O. "*In situ* observations of near-bed turbulence and cohesive sediment transport." (presentation) AGU Fall Meeting 2018, Washington, D.C.
- Egan, G.**, Monismith, S.G., & Hench, J.L. "1D water column modeling of stratification and turbulence in a tidal river." (poster) 2018 Ocean Sciences Meeting, February 2018, Portland, OR

## TEACHING

---

**CEE 262H: Observational Methods in Coastal Oceanography, Stanford University** Spring 2020  
Co-instructor: prepared and gave lectures related to turbulence and sediment measurements and data analysis in coastal environments.

**CEE 262B: Transport and Mixing in Surface Water Flows, Stanford University** Winter 2017, 2018  
Teaching assistant: prepared and taught lessons for weekly supplementary class session, held office hours, and graded assignments.

**OSPGEN 53: Corals of Palau, Stanford/Bing Overseas Program** Summer 2017  
Teaching assistant: Prior to the course, coordinated shipping and programming all of scientific instruments used for three week summer course in Palau. During the course, helped mentor student research projects, coordinated field excursions, and directed student life abroad.

**CEE 101B: Mechanics of Fluids, Stanford University** Fall 2016  
Teaching assistant: held weekly office hours and review sessions, set up and assisted with the laboratory portion of the course.

**CEE 201S: Computations in CEE, Stanford University** Summer 2016  
Teaching assistant: held weekly office hours, graded assignments, and led supplemental discussion section for a MATLAB-based programming class. Taught to a wide audience, from high school seniors to Stanford Continuing Studies students.

## INVITED TALKS

---

- "Buoys in the water, forecasts in the cloud: full stack oceanography at Sofar Ocean." UW Applied Physics Lab, May 2022, Seattle, WA
- "The bottom boundary layer in San Francisco Bay: waves, turbulence, mud, and worms." Coastal Ocean Fluid Dynamics Laboratory Talk, September 2019, Woods Hole, MA
- "What we learned from three muddy field deployments in San Francisco Bay." Integral Consulting Marine Science and Engineering Webinar, May 2019, Santa Cruz, CA
- "Cohesive sediment and the friction velocity." Stanford Environmental Fluid Mechanics Laboratory Seminar, April 2019, Stanford, CA
- "Stratification and turbulence in a tidal river: observations and 1D modeling." Stanford Environmental Fluid Mechanics Laboratory Seminar, September 2017, Stanford, CA

## AWARDS & CERTIFICATIONS

---

Centennial Teaching Assistant Award Recipient	2018
Outstanding Student Presentation Award, AGU Fall Meeting	2018
Charles H. Leavell Graduate Student Fellowship	2017–2018
John K. Vennard Fellowship	2015–2016
California EIT #157339	2016

## SERVICE, MENTORING,& OUTREACH

---

**Peer Reviewer** 2019–Present  
Reviewed publications for: *Journal of Geophysical Research: Oceans, Marine Geology, Estuaries & Coasts, Continental Shelf Research*

**Session Organizer** 2022  
Co-hosted a session, entitled IoT and Distributed Sensing in Ocean Science and Research, at Ocean Sciences Meeting 2022. Duties included reviewing submissions, scheduling talks and posters, and guiding community discussions.

**Undergraduate research mentor** 2018–2021  
Mentored an undergraduate researcher (now PhD student at UC Berkeley). Trained in field work and data analysis, and held weekly meetings for honors thesis project.  
For reference, contact Marianne Cowherd at cowherd@berkeley.edu

**Undergraduate research mentor** 2018–2019  
Assisted an undergraduate researcher (now PhD student at UC Berkeley) with her honors thesis, which won the Firestone Medal for Excellence in Undergraduate Research.  
For reference, contact Sienna White at siennaw@berkeley.edu

**Stanford CEE Graduate Life Committee** Environmental Engineering Representative 2017–2019  
Planned and led quarterly town hall meetings to gain insight into problems experienced by graduate students in CEE, including issues related to diversity and inclusion, advisor relationships, and admissions procedures.

**National Ocean Sciences Bowl** Volunteer - Stanford, CA 2017  
Assisted with judging and logistics for Ocean Sciences quiz bowl for local high school students.
